City Hall Office business hours are as followed:

Monday – Friday from 8 a.m. – 5 p.m.

In order to make it most resourceful to our limited staff, it would be very helpful to have the following information ready to provide to our investigators:

- Address of water waste, along with major cross streets. If you do not have an exact address, provide as much location information as possible.
- Date and time that you observed the over-watering.
- What you actually observed. For example:
  - Was the water running into the gutter?
  - Approximately how long had it been running?
  - Was the over-watering from irrigation, an open hose, a broken sprinkler?
- If you have observed over-watering at this location in the past, please provide that information also.

Here are a few examples of when to report water wasters.

- Running sprinklers over 10 min/day
- Washing hard or paved surfaces
- Washing vehicle – no shut off valve
- Watering during restricted hours
- Watering more than two days a week
- Watering on restricted day.
