### RECOMMENDATION

That the City Council adopt Resolution No. 2022-043 establishing the 2022-23 fiscal year Appropriations Limit at \$23,261,404.

### BACKGROUND

California Proposition 4, the "Gann Limit" Initiative (1979), created Article XIII B of the State Constitution placing limits on the amount of revenue which can be spent by all entities of government. Proposition 4 became effective for the 1980-81 fiscal year, but the formula for calculating the limits was based on the 1978-79 "base year" revenues. Proposition 111, approved by the voters in June 1990, provided new adjustment formulas to make the Appropriations Limit more responsive to local growth issues.

The Appropriations Limit applies to "all taxes levied by and for" an agency. This would include revenue received from property tax, sales tax, business license tax, motor vehicle fines, etc. It does not include Enterprise Fund revenues or successor redevelopment agency's tax increment revenues. (Redevelopment Agencies did not have the power to levy a property tax and were therefore exempt from the Appropriations Limit requirements.)

Article XIII B of the California Constitution specifies that each city, when calculating their Appropriations Limit, may choose the growth in the California Per Capita Income or the growth in the non-residential assessed valuation due to new construction within the City and the population growth of the City or that of Fresno County. These are both annual elections.

For the 2022-23 Appropriations Limit, the City has used the change in California's per capita personal income and the population growth of the City of Reedley. Proposition 111 requires a review of the Appropriations Limit during the annual financial audit. The limit applies both to appropriation of tax proceeds and taxes received. For Fiscal Year 2021-22, both revenues and appropriations are anticipated to be well within that year's Constitutional limit of \$21,583,131. For Fiscal Year 2022-23 it is estimated that both revenues and appropriations will be far less than the 2022-23 Constitutional limit of \$23,261,404. There is no fiscal impact to the City.

Dear Fiscal Officer:

**Subject: Price Factor and Population Information**

**Appropriations Limit**

California Revenue and Taxation Code section 2227 requires the Department of Finance to transmit an estimate of the percentage change in population to local governments. Each local jurisdiction must use their percentage change in population factor for January 1, 2022, in conjunction with a change in the cost of living, or price factor, to calculate their appropriations limit for fiscal year 2022-23. Attachment A provides the change in California's per capita personal income and an example for utilizing the price factor and population percentage change factor to calculate the 2022-23 appropriations limit. Attachment B provides the city and unincorporated county population percentage change. Attachment C provides the population percentage change for counties and their summed incorporated areas. The population percentage change data excludes federal and state institutionalized populations and military populations.

**Population Percent Change for Special Districts**

Some special districts must establish an annual appropriations limit. California Revenue and Taxation Code section 2228 provides additional information regarding the appropriations limit. Article XIII B, section 9(C) of the California Constitution exempts certain special districts from the appropriations limit calculation mandate. The code section and the California Constitution can be accessed at the following website: <http://leginfo.legislature.ca.gov/faces/codes.xhtml>.

Special districts required by law to calculate their appropriations limit must present the calculation as part of their annual audit. Any questions special districts have on this requirement should be directed to their county, district legal counsel, or the law itself. No state agency reviews the local appropriations limits.

**Population Certification**

The population certification program applies only to cities and counties. California Revenue and Taxation Code section 11005.6 mandates Finance to automatically certify any population estimate that exceeds the current certified population with the State Controller's Office. **Finance will certify the higher estimate to the State Controller by June 1, 2022.**

**Please Note:** The prior year's city population estimates may be revised. The per capita personal income change is based on historical data.

If you have any questions regarding this data, please contact the Demographic Research Unit at (916) 323-4086.

- A. **Price Factor:** Article XIII B specifies that local jurisdictions select their cost of living factor to compute their appropriation limit by a vote of their governing body. The cost of living factor provided here is per capita personal income. If the percentage change in per capita personal income is selected, the percentage change to be used in setting the fiscal year 2022-23 appropriation limit is:

Per Capita Personal Income	
Fiscal Year (FY)	Percentage change over prior year
2022-23	7.55

- B. Following is an example using sample population change and the change in California per capita personal income as growth factors in computing a 2022-23 appropriation limit.

**2022-23:**

Per Capita Cost of Living Change = 7.55 percent  
Population Change = -0.30 percent

Per Capita Cost of Living converted to a ratio:  $\frac{7.55 + 100}{100} = 1.0755$

Population converted to a ratio:  $\frac{-0.30 + 100}{100} = 0.997$

Calculation of factor for FY 2022-23:  $1.0755 \times 0.997 = 1.0723$
