Shannon Kulikov  
1299 N. Riverbend  
Sanger, CA 93657

Dear Ms. Kulikov:

The City of Reedley would like to exercise the right as listed in the lease agreement of Airport Premises for Crop Production Purposes under section 4. Use/Services Provided; Any changes to the annual service credit will be documented in writing and signed by Lessor and Lessee.

The City is requesting your consideration to change the chemical spraying area for the application of a pre-emergent in the fall/winter months. The amount of space to spray is roughly the same but the areas to where the pre-emergent will be applied are different than indicated in the agreement Exhibit B.

I understand from our conversation that there are some unknowns with this new request so I would like to revisit this after the first application of pre-emergent is applied to confirm the \$800 credit is sufficient.

By signing this letter you are agreeing to the new spraying area as presented in Exhibit C and will allow this to move forward with the \$800 credit. This can, however, be renegotiated after the pre-emergent has been applied and the amount of time to apply the chemicals has been determined.

Sincerely,

Sarah Reid  
Community Services Director

By signing below, both parties agree to this extension for one additional year with no changes to the current agreement.
