TITLE: ADOPT RESOLUTION NO. 2017-060 OF THE CITY COUNCIL OF THE CITY OF REEDLEY GRANTING AUTHORITY TO THE CITY MANAGER TO NEGOTIATE AND ENTER INTO A PROFESSIONAL SERVICES AGREEMENT FOR CONSTRUCTION MANAGEMENT SERVICES FOR THE PERIOD OF ONE YEAR

SUBMITTED: John S. Robertson, P.E.
City Engineer

APPROVED: Nicole R. Zieba
City Manager

RECOMMENDATION

Staff recommends that the City Council through Resolution No. 2017-060 take the following action:

1. Adopt Resolution No. 2017-060 granting authority to the City Manager to negotiate and enter into a professional services agreement with a firm for construction management services for the period of one year

EXECUTIVE SUMMARY

In order to ensure that all construction contracts within the City are constructed per plans and specifications, it is vital to have oversight of contractors performing the work. Depending on the size of the projects and staff availability, it is sometimes necessary to contract out these construction management services. In this way, the Department is able to maximize the current staffing levels while still delivering necessary projects.

Recently, the Engineering Department issued a request for qualifications to obtain the services of a consultant specializing in construction management services. Three firms responded to this request. Staff is requesting that Council grant authority to the City Manager or her designee to negotiate and enter into a contract with a firm that will be selected by a committee comprised of City staff from various departments.

The terms of the agreement with selected firm will be for a period of one year. Work will be

assigned to the consultant per task order on an as needed basis. The task orders will be submitted to the consultant for scope finalization and agreement of the associated fees of the individual task prior to starting the work.

BACKGROUND

All infrastructure construction projects require oversight by the City to ensure that all city, state, and federal guidelines are incorporated into the work, contractual guidelines are followed or met, and to ensure the quality of the final product. Many of these projects have direct oversight by City staff but due to the size of the project, complexity of the work, or availability of City resources it is often necessary to hire consultants to perform this work on behalf of the City.

The Engineering Department issued a request for qualifications in May of 2017 and received responses from three interested firms. Over the next few weeks, staff will interview the three firms and provide a recommendation of one firm to the City Manager that is qualified, experienced, and can meet the City's flexibility and financial needs. It is anticipated that these services will be needed for projects occurring this summer.

Due to the critical timing of several projects, staff is requesting authority to proceed with the contract prior to the completion of the selection process.

Additionally, it is the intent of the Department to use the selected consultant as a quality control expert by requesting they perform peer reviews of any plans and specifications created by staff or consultants performing design services for the City.

Staff will enter into negotiations with the selected firm to finalize the terms of the agreement relating to the issuing of task orders, payment, and confirming the commitment from the selected firm to provide these on-call as-needed services.

FISCAL IMPACT

The majority of these construction management services to be performed by the selected consultant are eligible for reimbursement from the federal fund programs that will be used to pay for construction. Measure C and/or Development Impact Fees will be used to pay for the required matching portion of the services and any items that are non-participating within the federal fund requirements.
