In the event of any such termination, the Owner shall immediately serve written notice thereof upon the surety and the Contractor, and the surety shall have the right to take over and perform the contract, provided, however, that if the surety within ten (10) days after the serving upon it of notice of termination does not give Owner written notice of its intention to take over and perform the contract or does not commence performance thereof within the ten (10) days stated above from the date of the serving of such notice, the Owner may take over the work and prosecute the same to completion by contract or by any other method it may deem advisable, for the account and at the expense of the Contractor, and the Contractor and his surety will be liable to the Owner for any excess cost occasioned the Owner thereby, and in such event the Owner, may without liability for so doing, take possession of and utilize in completing the work such materials, appliances, plant and other property belonging to the Contractor as may be on the site of the work and necessary therefore.

RECOMMENDATION

Staff recommends that the City Council adopt Resolution No. 2018-009 and take the following action:

1. Adopt Resolution No. 2018-009, awarding a construction contract to Seal Rite Paving and Grading for construction of the I, 7th, and 8th Street Modifications project in the amount of \$125,077.00 and grant authority to the City Manager to approve change orders up to an amount approximately equal to 10% of the construction contracted amount

EXECUTIVE SUMMARY

Staff is requesting that the City Council adopt Resolution No. 2018-009 awarding a construction contract to Seal Rite Paving and Grading (Contractor) and authorizing the City Manager to execute a construction contract for the I, 7th, and 8th Street Modifications (Project).

Additionally, the approved resolution grants authority to the City Manager to sign and approve change orders up to an amount approximately equal to 10% of the contracted amount or

\$12,507.70. The Project is fully funded through development impact fees and Measure C funds.

PROJECT DESCRIPTION/BACKGROUND

The intersections of I & 7th and I & 8th have a history of broadside and rear end collisions. In order to reduce the potential of a greater increase in the number and severity of accidents as traffic volumes increase, City staff performed engineering analysis at the two subject intersections to determine possible solutions that could be performed to help reduce the potential for accidents at these locations.

Stop sign and signal warrant analysis were performed at both locations. I and 7th did not meet warrants for the placement of additional regulatory signage control but the geometry of this intersection and its location relative to the signal at I and Reed does create stopping sight distance concerns. Additionally, during peak traffic periods of the day many vehicles waiting to turn left from 7th to I Street were observed shooting gaps between vehicles to complete their desired maneuver. Many "near misses" were observed. It was apparent from observation and traffic accident data that the elimination of this movement would greatly enhance the safety of the intersection.

By eliminating left turn at I and 7th, all traffic traveling northbound on Reed for destinations to the north part of the City would be diverted to the I and 8th intersection. Stop sign warrants were met at the I & 8th intersection when diverting northbound traffic from I & 7th to I & 8th. Once warrants were met the City of Reedley Traffic Safety Commission voted 5 to 0 for the placement of stop signs at the I & 8th intersection

On January 10, 2018 a bid opening was conducted in City Hall. Six (6) bids were received, opened, and read aloud. The bids received ranged from \$125,077.00 to \$180,575.00 as shown in the attached bid summary. The engineer's estimate of probable cost for the bid was \$104,156. The higher bids are due to greater than expected cost for pavement delineation, asphalt concrete, and aggregate base.

FISCAL IMPACT

The project is fully funded through development impact fees and Measure C funds.
